

KUMAR MANISK GAURAV

Email: maniskgaurav@gmail.com | LinkedIn: linkedin.com/in/kumar-manisk | GitHub: github.com/kmanisk

PROFESSIONAL SUMMARY

Information Technology graduate (B.Sc. IT) specializing in software engineering, backend systems, and API design using **Python**, **React.js**, and **SQL**. Experienced in building full-stack applications, executing SDLC workflows, and developing automated testing suites with **PyTest**. Proven background in engineering collaborative filtering recommendation models, high-throughput REST APIs, and automated data ingestion pipelines across two technical internships.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript (ES6+), SQL, C, C++

Web & Frameworks: React.js, Flask, RESTful APIs, HTML5, CSS3, JSON

Data & Machine Learning: Recommendation Systems, Collaborative Filtering, Pandas, NumPy, Scikit-learn, Matplotlib

Developer Tools & DBs: MySQL, SQLite, Git, GitHub, VS Code, Postman, Linux CLI

Software Engineering: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), SDLC, Unit Testing (PyTest)

PROFESSIONAL EXPERIENCE

TechnoHacks Solutions Pvt. Ltd.

Jun 2026 – Jul 2026

Data Analytics Intern

Remote, India

- Standardized **15,000+ raw records** utilizing Python (Pandas, NumPy), resolving **28% of data discrepancies** verified through automated pre- and post-cleaning validation scripts.
- Streamlined analytical data pipelines and designed **12 visual dashboards** in Matplotlib, accelerating recurring weekly reporting cycles by **35%**.
- Refactored relational SQL queries and established optimized ingestion workflows, lowering analytical query execution times by **20%**.

Mood Indigo, IIT Bombay

Jan 2024 – Feb 2024

Data & AI Intern (Project Lead)

Mumbai, India

- Orchestrated the design and deployment of a personalized **Movie Recommendation System** in Python using collaborative filtering and cosine similarity for **45,000+ festival participants**.
- Benchmarked model accuracy against attendee test datasets, reaching **88% recommendation precision** and increasing user session interactions by **24%**.
- Authored **6 technical strategy reports** and guided cross-functional coordination between operations and outreach teams to optimize event scheduling.

TECHNICAL PROJECTS

E-Commerce Price Tracker & Alert Engine

Python (Flask), React.js, SQLite, BeautifulSoup, PyTest

Full-Stack Web Application

github.com/kmanisk

- Architected an automated web platform monitoring price fluctuations across **200+ product listings** with **99.5% scraper uptime** via multi-threaded background workers.
- Programmed modular Flask REST API endpoints with indexed SQLite storage, maintaining query response times under **180ms**.
- Constructed interactive front-end interfaces using React.js components and state hooks, cutting page render latency by **30%**.
- Deployed asynchronous background email triggers to dispatch instant price-drop alerts within **15 seconds** of detected fluctuations.
- Validated core backend services with **25+ PyTest unit and integration test cases**, maintaining **85%+ code coverage**.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT)

Graduated: 2026

HSNC University, Mumbai

Mumbai, India

- Coursework:** Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems (DBMS), Software Engineering, Web Technologies.
